

## Young Population and Social Exclusion in ITALY

In order to provide a comprehensive and detailed overview of youth social inclusion degree in each EU country, the InterArts' partnership has decided to focus on 7 main areas:

1. Youth Population and Trends
2. Education level of young population
3. Youth Employment and Unemployment
4. Youth Social Inclusion
5. Differences between EU and foreign-born young people
6. Differences between young people living in cities, towns\suburbs, rural areas
7. Statistics concerning young population with disability

Each area is made up of several indicators, highlighting **trends and differences with the EU average from 2013 to 2018**.

In addition, each indicator is provided with one **graphic showing differences among all the EU countries in 2017 and 2018**.

The whole set of statistics has been extracted from the **Eurostat online database** in May 2019.

\* In 2011, the European Union Labour Force Survey (EU-LFS) included an ad hoc module (AHM) on employment of disabled people. The module consisted of 11 variables dealing with:

- Health problems and difficulties in basic activities;
- Limitations in work caused by health problems/difficulties in basic activities;
- Special assistance needed or used by people with health problems/difficulties in basic activities;
- Limitation in work because of other reasons.

On the basis of how the module was operationalised, the following two main definitions for disability were considered for presenting the results:

- Disabled persons = People having a basic activity difficulty (such as seeing, hearing, walking, communicating);
- Disabled persons = People having a work limitation caused by a longstanding health condition and/or a basic activity difficulty.
