

Young Population and Social Exclusion in POLAND

In order to provide a comprehensive and detailed overview of youth social inclusion degree in each EU country, the InterArts' partnership has decided to focus on 7 main areas:

1. POPULATION AND TRENDS 2

2. EDUCATION 4

3. EMPLOYMENT AND UNEMPLOYMENT 6

4. SOCIAL INCLUSION 15

5. DIFFERENCE BETWEEN YOUNG PEOPLE BORN IN EU-REPORTING COUNTRIES AND FOREIGN COUNTRIES 20

6. Difference between young people living in CITIES, TOWNS AND SUBURBS AND RURAL AREAS 25

7. YOUNG POPULATION WITH DISABILITY 30

Each area is made up of several indicators, highlighting **trends and differences with the EU average from 2013 to 2018**.

In addition, each indicator is provided with one **graphic showing differences among all the EU countries in 2017 and 2018**.

The whole set of statistics has been extracted from the **Eurostat online database** in May 2019.

* In 2011, the European Union Labour Force Survey (EU-LFS) included an ad hoc module (AHM) on employment of disabled people. The module consisted of 11 variables dealing with:

- Health problems and difficulties in basic activities;
- Limitations in work caused by health problems/difficulties in basic activities;
- Special assistance needed or used by people with health problems/difficulties in basic activities;
- Limitation in work because of other reasons.

On the basis of how the module was operationalised, the following two main definitions for disability were considered for presenting the results:

- Disabled persons = People having a basic activity difficulty (such as seeing, hearing, walking, communicating);
- Disabled persons = People having a work limitation caused by a longstanding health condition and/or a basic activity difficulty.
